Prodesp

Full Stack Java Developer Senior

março de 2018 - março de 2021 (3 anos 1 mês)

São Paulo, São Paulo, Brazil

A company of the São Paulo State Government that is being responsible for data processing and is currently a major provider of technological solutions for the entire Sao Paulo government and its organizations involved. (<https://www.poupatempo.sp.gov.br/>)

Furthermore, I was the leader of a project which sends email or push notification of vast different types of events to citizens.

Also, I was leading a project which helps the big data analytics team to conciliate possible fails on the database and how to solve it.

Development and maintenance of Web applications with the following technologies:

- Git
